

Transferring Energy Efficiency in Mediterranean Schools

TEESCHOOLS

The project aims to support Local Authorities to implement Nearly Zero Energy Building (NZEB) refurbishments in Mediterranean schools. An integrated set of user friendly tools will be tested and validated by pilot actions in each partner region.

Key outputs

- Integrated set of tools supporting energy efficiency management in schools with carbon footprint calculator; best practices database for NZEB energy renovation of school buildings; financial solutions and schemes for energy efficiency;
- Pilots applications at school buildings: energy audits, renovation plans, calculation of carbon footprint of the renovation activities, development of energy service models and financing schemes.
- E-learning and face-to-face training of Regional and Municipal technical staff, energy managers and students.
- Development of policy recommendations and integration of project outputs to city plans.
